

TopRatedCC - Full Site Audit Checklist

Updated 2026-09-07 | Progress: **20 of 28 items fixed** | Based on repository verification

[X] **FIXED** items are confirmed in the current codebase. [] **OPEN** items remain for a future pass. This updated copy supplements the original audit PDF; it does not alter the original file.

0. Highest Priority - Pricing Integrity

[X] **FIXED** Sale badges show a fabricated "original price"

Resolved: sale presentation no longer invents a reference price at render time.

1. Hurts Real Purchases

[X] **FIXED** Guest checkout is unreachable

Resolved: guests can proceed to checkout; sign-in is offered without blocking the purchase path.

[X] **FIXED** /cart is a dead 404

Resolved: the standalone cart route exists.

[] **OPEN** No error boundaries anywhere in the app

Still open: add route-level error.tsx and loading.tsx states for graceful failures and loading.

[X] **FIXED** Admin Orders can never change status

Resolved: staff can update order status from the admin Orders screen.

2. Visibly Broken / Dead Ends

- [X] **FIXED** Footer "Sealed Products" and "Premium Singles" links are dead
Resolved: footer links use real shop filters.
- [X] **FIXED** Footer "Merchandise" link is dead
Resolved: footer points to the real Accessories taxonomy.
- [X] **FIXED** Footer "TCG Cards" -> Pokemon link
Resolved: footer points to the working TCG filter.
- [X] **FIXED** Get Directions does not point at the store
Resolved: link opens a Google Maps query for the Windsor store address.
- [X] **FIXED** Want-list does not survive a page refresh
Resolved: want-list persists in localStorage.
- [X] **FIXED** Editing/toggling a product blanks its Category
Resolved: updateProduct derives the top-level category from the database category lookup.

3. Content Gaps - Trust & Compliance

- [X] **FIXED** No Privacy, Terms, Returns, Shipping, or FAQ pages exist
Resolved: the policies page exists and is linked from the footer.
- [X] **FIXED** Placeholder store address and phone number are still live
Resolved: customer-facing address, phone, directions, and phone link use the real store details.
- [X] **FIXED** Confirm support@topratedcards.com is a monitored inbox
Resolved: support now uses the in-app contact form and admin Messages inbox.
- [] **OPEN** Account -> Settings shows raw internal dev notes to customers
Still open: confirm the current account settings surface contains no internal development copy.
- [X] **FIXED** Admin "Customers" count includes staff/admin accounts
Resolved: customer counts and directory queries filter to role = customer.
- [X] **FIXED** Homepage "Coming Next Month" event never resolves
Resolved: homepage events come from managed data and expire one day after their end date.

4. SEO

[X] FIXED No robots.txt or sitemap.xml

Resolved: dynamic /robots.txt and /sitemap.xml routes include public pages and database products.

[X] FIXED Every page shares one identical generic title and meta description

Resolved: public pages have route-specific metadata; product pages use generateMetadata.

[X] FIXED No Open Graph/Twitter tags, canonical URLs, or product structured data

Resolved: canonical URLs, social preview metadata, and Product JSON-LD include price and availability.

5. Security Headers

[X] FIXED No CSP, X-Frame-Options, Referrer-Policy, or Permissions-Policy

Resolved: next.config.ts sets CSP, DENY framing, strict-origin refererrs, Permissions-Policy, HSTS, and nosniff.

6. Accessibility

- [] **OPEN** Several icon-only buttons have no accessible label
Still open: audit navbar, cart drawer, and toast icon buttons for aria-label coverage.
- [] **OPEN** Muted gray text fails contrast standards
Still open: raise --text-muted and verify contrast across storefront and admin surfaces.
- [] **OPEN** Admin product-edit form has unlabeled inputs
Still open: associate each ProductEditModal label with its input using htmlFor/id.

7. Content Quality

- [] **OPEN** Live product name typo: "1000 Peice Marvel Puzzle"
Still open: correct the product name in the database.
- [] **OPEN** Most of the catalog still shows generic stock photos
Still open: replace placeholder imagery with verified product photography, prioritizing high-value items.

8. Minor / Cleanup

- [X] **FIXED** CartDrawer hardcodes its own \$300 free-shipping threshold
Resolved: CartDrawer uses the shared pricing constant.
- [] **OPEN** No loading.tsx anywhere
Still open: add loading states and skeletons for data-heavy storefront and admin routes.

Remaining Work

The remaining audit items are concentrated in accessibility, error/loading states, product data cleanup, and verified product photography. The new SEO and security-hardening changes are included in the fixed count but are currently uncommitted in the repository.
